

# OHIO Bridge Conference

This two-day Conference will provide information on maintenance, design, rehabilitation, specification, spreadsheets, load rating software, as well as other important issues. Ohio ranks second in the nation in number of bridges, making this one of Ohio's most important conferences.

Thursday Luncheon Key Note Presentation:  
**"Fulton Road Bridge Project"**

The conference will feature presentations on a variety of important topics and is especially oriented for those in charge of maintaining bridges and/or bridge type systems.

Plan now to attend this year's Ohio Bridge Conference and Trade Show. Registration at the Conference (form enclosed) will open on Wednesday, August 12th at 11:00 a.m. Trade Show participants are welcome to attend the seminar sessions at no additional charge.

The Trade Show will be open to conference attendants on August 12th, from 11:00 a.m. - 6:00 p.m., providing an excellent opportunity for companies to showcase products and services and have direct contact with many of Ohio's engineers and decision making staff. Refreshments will be available in the Trade Show area throughout the conference and a reception will be held in the Trade Show area after the last session on Wednesday. A \$50 discount is offered to all CEAO Supporting Members in the Trade Show. Exhibitors will be contacted by the George Fern Co. regarding details and any special needs you may have for the Trade Show after we receive your registration.
